

RC circuit - structured uncertainty

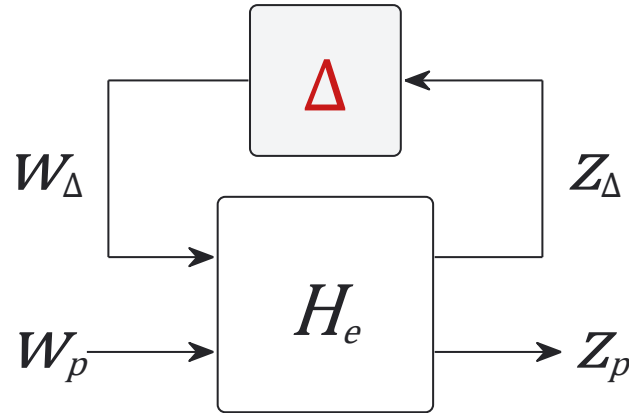

Source PDF: 4

Closed-loop stability interconnection

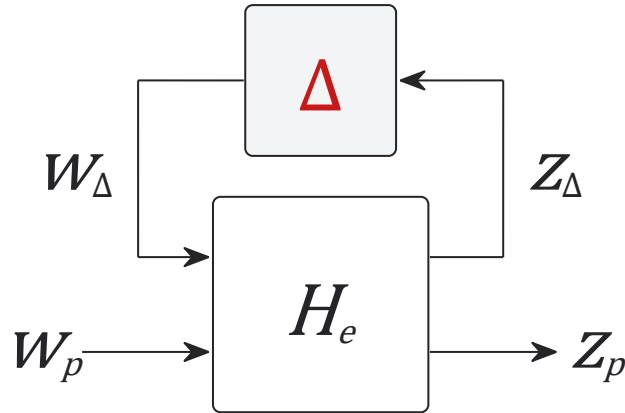

Extended plant - performance channels

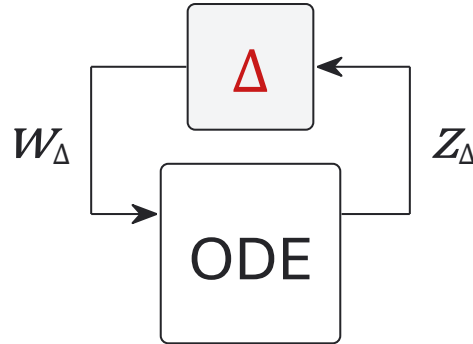

Source PDF: 6

Performance objective - compact loop

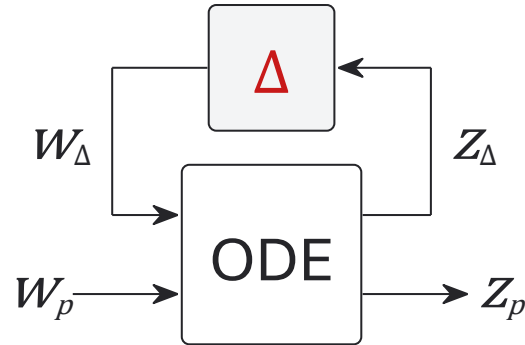

Source PDF: 7, 8, 9, 10

ODE - stability

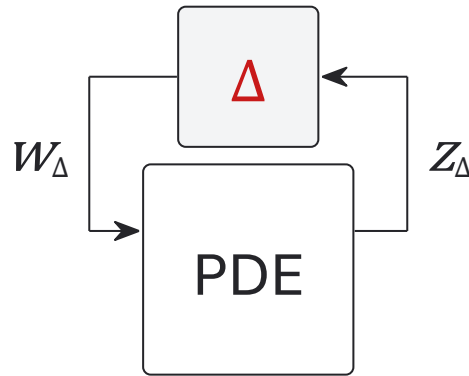

ODE - performance

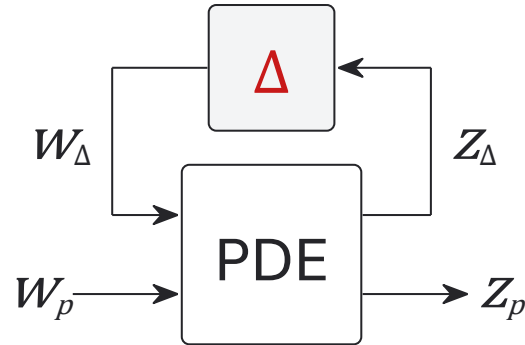

Source PDF: 14, 15

PDE - stability

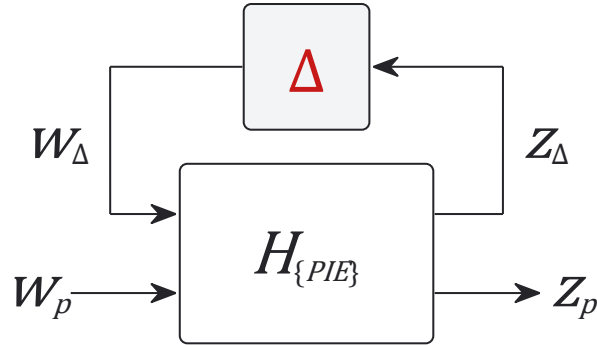

Source PDF: 41

PDE - performance

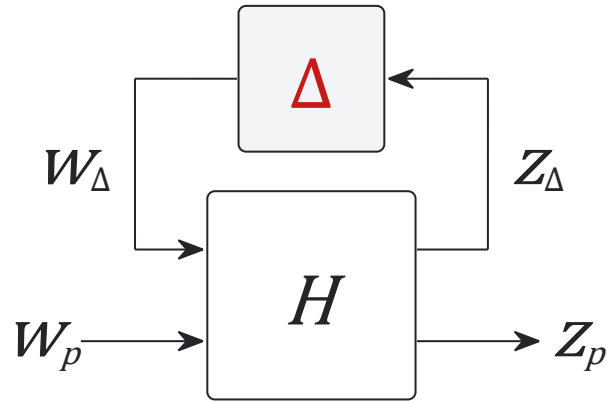

Source PDF: 43, 44

PIE - conversion output

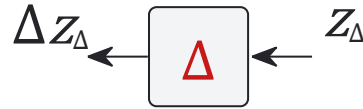

Source PDF: 44

Admissible uncertainty - performance

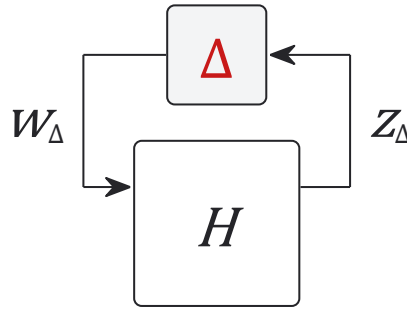

Source PDF: 45, 46, 47, 48, 49

Uncertainty input-output map

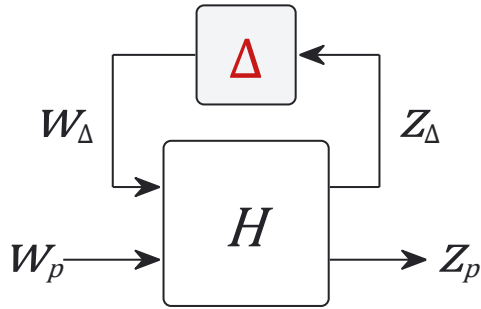

Source PDF: 50, 51, 52

Dissipativity - stability loop

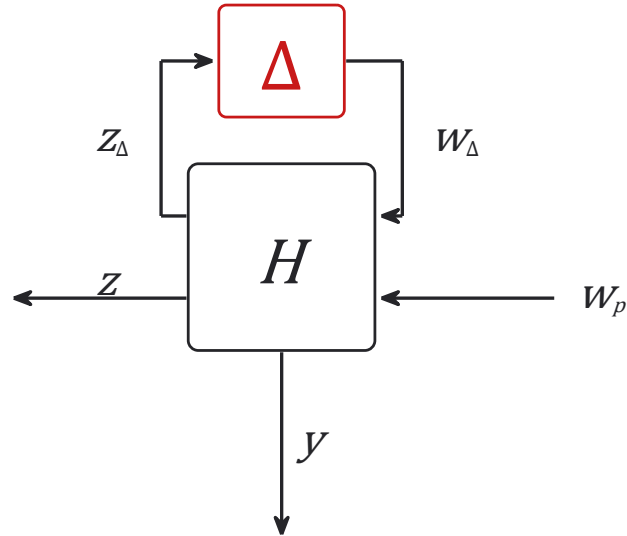

Source PDF: 53

Dissipativity - performance loop

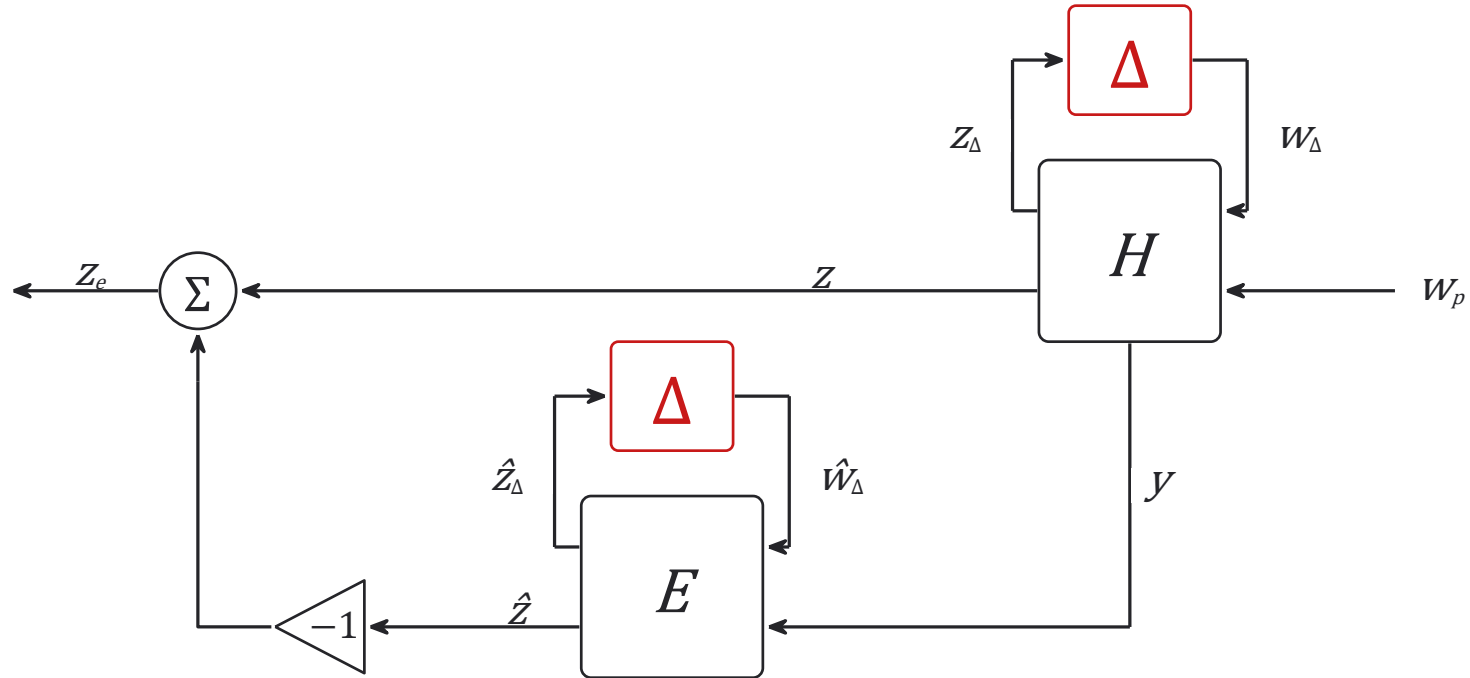

Source PDF: 54, 55, 56, 57, 58

Plant with measured output

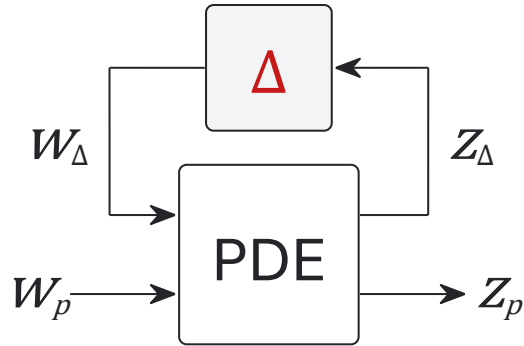

Source PDF: 61

Luenberger observer interconnection

Source PDF: 62

PDE-to-PIE conversion
